

Hardi N. Raval

eCommerce Operations Analyst | Inventory & Marketplace Operations | Excel | Power BI | SQL

Hardiraval16@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

eCommerce Operations Analyst with hands-on experience supporting inventory management, marketplace operations, shipment tracking, and order fulfillment in fast-paced environments. Skilled in Excel, Power BI, and SQL for operational reporting, inventory analysis, and process improvement. Experienced working with Amazon Seller Central, Walmart Marketplace, warehouse operations, and cross-functional teams to improve fulfillment accuracy and operational efficiency.

TECHNICAL SKILLS

Analytics	Microsoft Excel (Advanced), Power BI, Tableau, SQL
Marketplace Platforms:	Amazon [Additional Advertising Metrics (ROAS, CPC, CTR)], Walmart, Home Depot Marketplace
Operation	Inventory Reconciliation, Shipment Tracking, Order Fulfillment, SKU Analysis, Logistics Coordination
Tools	Jira, Monday.com, Asana, ZOHO
Additional	Python, Google Analytics, SEO, ERP/SAP (Basic)

PROFESSIONAL EXPERIENCE

Analyst (eCommerce & Supply Chain) | Venti Air Products | Rosenberg, TX

Aug 2025 - Present

- Managed inventory and SKU-level reporting across 500+ weekly orders to improve fulfillment accuracy and operational visibility.
- Investigated shipment delays, inventory discrepancies, and order exceptions by coordinating with warehouse and operations teams.
- Built Power BI dashboards and Excel reports to track inventory movement, shipping performance, and operational KPIs.
- Supported marketplace operations by maintaining product listings, pricing updates, and Catalog accuracy across Amazon and Walmart platforms.
- Identified workflow inefficiencies in inventory and fulfillment processes, helping improve operational accuracy and reduce delays.
- Collaborated cross-functionally with warehouse, operations, and marketplace teams to streamline order processing and delivery coordination.

PROJECTS

HR Analytics (Power BI)

[GitHub](#)

- Designed an interactive Power BI dashboard tracking attrition, satisfaction, and hiring KPIs for workforce planning.
- Data validation using SQL queries, ensuring real-time accuracy and reducing manual HR reporting effort by **40%**.

E-commerce Analytics Dashboard (Tableau)

[GitHub](#)

- Analyzed 34K+ e-commerce transactions to evaluate shipping costs, profit margins, and regional performance, identifying key profitability leaks where logistics costs exceeded revenue.
- Identified delivery bottlenecks and cost inefficiencies across 4 regions, recommending data-driven strategies to optimize shipping-to-profit ratios and improve overall margin performance.

Water Potability Classification (Python and Data Mining)

[GitHub](#)

- Achieved **90%** model accuracy in predicting potable vs. non-potable water samples, improving reliability of public safety data classification.
- Applied machine learning classification techniques using Python to predict outcomes and evaluate model performance metrics.

Bookshop Database Management (MySQL)

[GitHub](#)

- Reduced manual errors by **20%** by designing a centralized DBMS to automate workflows and streamline bookstore operations.
- Developed a robust DBMS on SQL Server to streamline workflows and enhance operational efficiency.

EDUCATION

University of Houston – Downtown - GPA: 3.83/4.0

Aug 2023 - May 2025

Master of Science in Data Analytics (MSDA)

Houston, TX, USA

Symbiosis International University

Master of Business Administration in Information Technology (MBA- IT)

Gujarat University

Bachelor of Computer Applications (BCA)
